Databases: Mysql, MongoDB.

Strengths

- Excellent communication & teamwork skill.
- Ability to grasp the new skills and technologies quickly.
- Hard-working & multi-tasking.
- Excellent knowledge of Core subjects.

Education

- Bachelor of Computer Science from **King Faisal University** with 3.3/5
- High School Certificate from **Al-Harameen** with 97%

Projects

Project 1: Deep Weed Classification Using CNN

Team size: 4

Front End: HTML, CSS

Back End: python

Project description: The automatic classification of plants using deep learning algorithms is an important academic and practical challenge. the system reduce the labor cost and herbicide usage with more efficient selective application to weed targets.

Project 2: Text Summarizer

Team size: 4

Front End: HTML, CSS

Back End: python

Project description: As the textual content on the Internet grows exponentially, we developed a system can produce an informative extractive Arabic summary, based on a weighted graph algorithm. The achieved results were on the same level as the best results achieved in the relevant literature.
